Performance Coding and Marking for the Construction Industry

GYPSUM PRODUCTS

Robust design ensures our systems provide dependable long-term performance and reliability in the most demanding operating environments for the application of variable product information such as; product names, specification, date, time, shift and batch codes, product count, end-user information, as well as industry and company logos and graphics.

TYPICAL APPLICATIONS INCLUDE;

- Back marking
- Pack printing
- Coving products
- Edge/Taper printing
- Foil backed products
- Bag printing

The increasing demand for corporate branding to work in conjunction with the application of general product information as a more cost effective and flexible solution for all marking processes is met by our MPERIA operating system.

MPERIA makes message programming simple and helps manage multiple production lines, print heads and technologies from a single interface.

FEATURES AND BENEFITS OF THE RANGE INCLUDE;

- The flexibility to control one or multiple print heads and technologies from a single operating system helps to standardise on equipment irrespective of the product, application or substrate, reducing hardware at the line and the cost of implementation
- Small & large character printing from a single print head with the facility to apply multiple lines of information as well as high resolution text, graphics and logos
- High print speeds
- Print heads can be mounted in any orientation and the position adjusted without incurring downtime for cleaning, re-priming or re-aligning jets
- Extensive range of ink types and colours to suit all applications including options for bulk ink supply units to minimise changeovers and reduce operating costs
- Compact modular design provides flexibility on installation ensuring easy integration at the production line, with plug'n'play connections for quick changeovers
- Systems can operate stand-alone or networked to a PC, PLC or other production line devices
- User friendly & uncomplicated design minimises maintenance requirements ensuring sustainability at site level

With over **40 years industry experience,** and as a leading supplier to operations within harsh production environments we have established long-term relationships based on the reliability and flexibility of our systems, as well as our after sales service and support.

For more information on our range of solutions, an evaluation of your own product marking requirements, print samples or on-site demonstration, please contact one of the team.
