The UK's Leading Provider of Specialist
Packing, Marking & Validation Systems
for the Food Industry

For all your pack house needs, from stand alone to integrated systems and factory control software.

GRADE: GRADING SYSTEMS

In partnership with Compac, Xact Prepack are delivering world leading integrated sorting & packaging solutions to meet the needs of the demanding retail market. Produce grading systems use advance technology to satisfy consumer needs for convenient food that has consistent quality, safety and availability.

WEIGH: WEIGHING & COUNTING SYSTEMS

Our Weighing and Counting range of machines includes the 'Exact 100', the World's most dynamic weighing machine for ultimate speed and accuracy. We are at the forefront of technology providing machinery to save produce and ultimately save you money.

PACK: PACKING SYSTEMS

NET PACKING

We have established market leadership in the UK fruit and vegetable net packaging market with our range of World Leading GIRO net packing machines and consumables. Our packs have featured in the UK's major supermarkets for years and we are constantly developing new packs to keep up with the changing consumer demand.

FLOW PACKING

Xact Prepack is the exclusive UK partner for the Belca Group, a leading manufacturer of packaging machinery to meet the requirements of the food industry, especially in the fresh produce, bakery, meat, fish and prepared foods sectors. These machines are reliable, versatile and easy to use, production flows and downtime is minimised.

PUNNET NETTING

In partnership with Rev, we provide a punnet netting machine, suitable for all fresh produce packed in punnets in extruded tubular net. This machine is fast, efficient and extremely versatile. Suitable for products including peaches, apricots, plums, tomatoes... basically, all products that can be contained in a punnet.

VALIDATE: VALIDATION

CHECKWEIGHERS

Xact Prepack offer flexible checkweighing solutions helping you to achieve 100% product quality. Whether you need an inspection system to detect missing items, under weight/overweight product or undesirable foreign bodies in your products our systems will save you money.

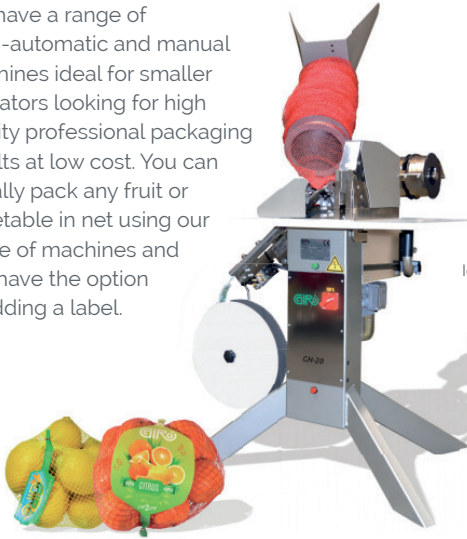

METAL DETECTORS

We supply accurate, safe and reliable industrial metal detector systems for the processing and packaging industries. Our range of inline metal detectors are suitable for any kind of product regardless of the shape or content (liquid, powder, granular or solid).

FILL: SEMI AUTOMATIC NET PACKING MACHINES

We have a range of semi-automatic and manual machines ideal for smaller operators looking for high quality professional packaging results at low cost. You can literally pack any fruit or vegetable in net using our range of machines and you have the option of adding a label.
