

AGGREGATE PRODUCTS

Robust design ensures our systems provide dependable long-term performance and reliability in the most demanding operating environments for the application of variable product information such as; product name, code, description, date, time, shift & batch codes, weight and product count, as well as industry and company logos.

TYPICAL APPLICATIONS INCLUDE;

- Gypsum
- Grout
- Stone
- Cement
- Sand
- Gravel

FEATURES AND BENEFITS OF THE RANGE INCLUDE;

- Small & large character printing from a single print head with the facility to apply one or multiple lines of information
- Consistent performance & reliability even when subjected to varying operating temperatures, dust and vibration
- High print speeds across all fonts with no depreciation on character height or format
- Print heads can be mounted in any orientation and the position adjusted without incurring downtime for cleaning, re-priming or realigning jets
- Extensive range of ink types and colours to suit all applications and compatibility with porous and non-porous packaging materials, including bulk woven bags
- Operate single or multiple printheads from one controller for applications over one or more production lines
- Compact modular design provides flexibility on installation ensuring easy integration at the production line, with plug'n'play connections for quick changeovers (i.e. for moving heads between production lines)
- Auto-flushing and cleaning
- Excellent throw distance ensures high print quality is achieved without positioning the print head within close proximity of the product
- Systems can operate as stand-alone or networked to a PC, PLC, weighing machine or other similar devices, as well as the facility to store multiple print files.
- User friendly & uncomplicated design minimises maintenance requirements ensuring sustainability at site level

With over **40 years industry experience**, and as a leading supplier to operations within harsh production environments we have established long-term relationships based on the reliability and flexibility of our systems, as well as our after sales service and support.

For more information on our range of solutions, an evaluation of your own product marking requirements, print samples or on-site demonstration, please contact one of the team.
