

Robust design ensures our systems provide dependable long-term performance and reliability in the most demanding operating environments for the application of variable product information such as; product description, specification, order numbers, date, time, batch & shift codes, barcodes as well as industry and company logos.

TYPICAL APPLICATIONS INCLUDE;

- ✓ Cores Tubes
- ✓ Paper Reels
- ✓ Cut Sheet Pulp & Wet Lap
- ✓ Bales
- ✓ Specialised Papers
- ✓ Coated & Uncoated Media
- ✓ Hygiene Products
- ✓ Registration Marks
- ✓ Packaging Media

**FEATURES AND BENEFITS OF THE RANGE INCLUDE;**

- Small & large character printing from a single print head with the facility to apply multiple lines of information and high resolution text, graphics, logos and barcodes
- Non contact printing onto inconsistent product shapes and sizes eliminates wear and tear on the head
- High print speeds across all fonts with no depreciation on character height or format
- Print heads can be mounted in any orientation and the position adjusted without incurring downtime for cleaning, repriming or realigning jets
- Extensive range of ink types and colours to suit all applications, including coated and uncoated media.
- Operate single or multiple print heads from one controller for applications over one or more production lines
- Compact modular design provides flexibility on installation ensuring easy integration at the production line, with plug n play connections for quick changeovers (i.e. for moving heads between production lines)
- Auto flushing and cleaning
- Excellent throw distance ensures high print quality is achieved without positioning the head too close to the product
- Systems can operate stand alone or networked to a PC, PLC or other production line devices
- User friendly & uncomplicated design minimises maintenance requirements ensuring sustainability at site level

With over **40 years industry experience**, and as a leading supplier to operations within harsh production environments we have established long-term relationships based on the reliability and flexibility of our systems, as well as our after sales service and support.

For more information on our range of solutions, an evaluation of your own product marking requirements, print samples or on-site demonstration, please contact one of the team.
