

Robust design ensures our systems provide dependable long-term performance and reliability in the most demanding operating environments. Our industry approved marking technologies provide cost effective solutions for primary, secondary and tertiary packaging, ranging from the application of basic product data and traceability codes to high-resolution print formats incorporating barcodes, logos and graphics.

TYPICAL APPLICATIONS INCLUDE;

- ✓ Carton & Cases
- ✓ Plastic Containers
- ✓ Pouches
- ✓ Bags & Sacks
- ✓ Glass Bottles
- ✓ Films

FEATURES AND BENEFITS OF THE RANGE INCLUDE;

- Small & large character printing options with a choice of systems to meet basic product coding requirements through to applications demanding high resolution print formats (including Windows TrueType fonts), graphics, logos and barcodes
- Consistent performance & reliability in the most demanding operating environments (variable operating temperatures, dust, vibration etc)
- High speed operation for the application of both single and multiple lines of print, with no depreciation on character height
- Operate single or multiple printheads from one controller over one or more production lines, including a mix of our printing technologies to suit each application – Providing unrivalled flexibility and scalability to not only meet current mark requirements but to grow with your business, making your investment secure, as well as improving productivity, eliminating coding errors and costly product re-calls
- Compact modular design provides flexibility on installation ensuring easy integration at the production line, with plug'n'play connections for quick changeovers
- User friendly & uncomplicated design minimises maintenance requirements ensuring sustainability at site level
- Systems can operate as stand-alone or networked to a PC, PLC or other production line device, as well as providing effortless integration with ERP/MRP and WMS systems
- Auto-flushing and cleaning
- An extensive range of user and environmentally friendly industry inks in a variety of colours to suit porous and non-porous packaging materials

With over **40 years industry experience**, and as a leading supplier to operations within harsh production environments we have established long-term relationships based on the reliability and flexibility of our systems, as well as our after sales service and support.

For more information on our range of solutions, an evaluation of your own product marking requirements, print samples or on-site demonstration, please contact one of the team.
