

America is a top-notch automatic filler of open boxes 60x40cm. It can be programmed with many recipes, so it can handle from 4 to 12 trays per box, on one or two levels.

America can work with plastic punnets, clamshells, top-seal, flowpack and also carton trays. Boxes can be in carton or in plastic, also foldable (IFCO, CPR, STECO and similar), as long as they are totally open on the top.

The on-board touch-screen control panel is used to manage the machine and program the recipes.

Suitable to process all products packed in punnets and trays, such as: strawberries, peaches, nectarines, kiwi, apricots, plums, tomatoes, avocados, cherries, pears, grapes etc..

PLUS:
